## iCLEM Summer Biotech Internship

ICLEM is an 8-week paid summer internship program for high potential, low-income high school sophomores and juniors. Students work on a biofuels research project in a state-of-the-art lab alongside UC Berkeley scientists.

### Benefits

- Learn valuable lab and research skills.
- Explore science careers, visit biotech companies.
- Stipend of \$ 1500, plus \$ 500 scholarship.
- Food and BART passes provided.
- Your own laptop computer for the summer.
- Become a competitive applicant to top colleges!

Questions: Kate Spohr, [kspohr@berkeley.edu](mailto:kspohr@berkeley.edu).
